Forecast for Thursday 09 Jun 2022

Weather: Dry with clear spells during the early hours and at first Thursday morning. Clouding over from the southwest during the morning with outbreaks of rain and drizzle developing by midday and persisting throughout the afternoon. Becoming dry early in the evening with low cloud lifting and breaking to leave some clear spells.

Chance of cloud-free hill tops above 800m: 90% or better at first deteriorating to 20% or less by midday. Improving to 80% or better by mid evening.

Low Cloud and visibility: Occasional patches of cloud near 900m at first, but extensive low cloud developing on slopes above 400-500m late morning onwards. Low cloud will lift and break early evening onwards leaving occasional patches near 600m. Visibility beneath cloud initially good, but becoming moderate or poor in rain and drizzle. Improving later as rain clears to become generally good beneath any cloud.

Freezing Level*	2000m	2000m	1600m	2500m	3200m	2800m	2100m	1900m	1800m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

It will feel cold on the summits at first and again later in the day, so remember to pack warm layers as well as waterproofs. Extensive low cloud will bring difficult navigation conditions to many routes during the day.

Forecast for Friday 10 Jun 2022

Weather: Clear spells and the odd light shower in the west during the early hours of Friday. During the day a mix of sunny spells and a low chance of an isolated light shower. Increasingly windy during daylight hours with strong and gusty winds affecting higher routes and summits.

Maximum wind: Southwest 30-35mph gust 45mph.

Chance of cloud-free hill tops above 800m: 80% but 40% in the west during the early hours.

Low Cloud and visibility: Occasional periods of cloud on slopes above 400-500m in the west during the early hours, otherwise only patchy cloud near 800-900m, mainly in association with any showers.

Temperature: **Valleys:** Plus 9 Celsius becoming plus 16 Celsius.
At 800m: Plus 8 Celsius.
Freezing level: Above the summits.
